

# Helpful Heroes Term 4

## P.S.E.D

We will be thinking about what it means to be a hero and how we are all superheroes in our own way. We will consider the feelings of the characters in various stories and their relationship with their nemesis. We will also explore different ways to keep ourselves healthy.

## Physical Development

In P.E. we will continue to develop our balancing, jumping, throwing, climbing and catching skills. We will also continue to develop our fine motor skills when using a range of small tools.

## Maths

We will be learning to represent and compare numbers up to 10. We will begin to explore number bonds to 10 and will be making complex repeating patterns.

## Understanding the World

We will learn about the lives of people around us and their roles in society. We will explore how these roles may have been different in the past. We will learn about changes in states of matter through investigating freezing and melting. We will also use a computer program to bring a superhero to life.

## Communication and Language

We will continue to express our ideas and feelings using full sentences including use of past, present and future tenses. We will continue to develop our understanding of the use of questioning in response to what we hear.

## Literacy

We will be using our sounds to write about saving the vegetables from the evil pea and about the Supertato story. We will also be writing secret messages using crayons and paint.

## Expressive Art and Design

We will be designing and making our own super vegetables and emergency vehicles. We will look closely at signs of spring and make representations of what we can see.

## Forest School sessions

Badgers 3rd March, 24th March

Rabbits 10th March, 31st March

Hedgehogs 17th March

Please wear your Forest School kit to school on these days.

## Event

We will be holding a superhero themed fun day.
