

# Under the Sea Home Learning

Please choose some of the activities to complete during this term.

Please share your activities on Tapestry or bring into school as you complete them.  
We look forward to seeing them!

What creatures live under the sea? Can you draw a picture and write a list?

Go on a walk and be a 'materials' detective. Can you find something that is made of plastic, wood, metal, glass?

Visit a pet shop or garden centre and look at the fish. Which is your favourite? Why do you like it?

Learn and perform some sea themed songs.

Try eating some fish or sea food.  
What does it taste like?  
Do you like it?

Play with some sand or water.  
Can you use the words 'full', 'half full', 'empty'?

Ask a grown-up to tell you about a time they visited the seaside. You could share some photos if they have any.

Design and make a vehicle that travels on water e.g. a raft, surfboard, submarine.

Have a go at completing a 24 or 48 piece puzzle. Remember to find all the outside pieces first.

Make up some number problems to solve e.g. If you share 12 raisins between you and your friend, how many would you have each?
